Organizational Conflict of Interest

WR-ALC/PK

- Meetings that involves planning for the IWSSP/F²AST follow-on
- Contractors whose company plans to participate at any level in the competition cannot participate in any way in the planning for that competition
  - A&AS contracts that support government personnel (DAG/CAG/PMs, etc)

Organizational Conflict of Interest

WR-ALC/PK

- According to the laws and regulations governing OCI, those contractors either have to recuse themselves from the competition to participate in the planning, or the government will be required to bar them from the competition if they are found to have participated
